AGENDA

1.) STREET RESURFACING PRIORITY LIST

ISSUE: The City Commission will consider updating the street resurfacing priority list for future resurfacing and road improvement projects.

ATTACHMENTS:

- Street Resurfacing Priority List

ANALYSIS: The City's capital improvement program currently schedules a street resurfacing project every two years. The two year cycle allows for a buildup of \$180,000 in restricted gas tax revenues (\$90k each year) to be spent on a single project that is more effective due to incurring a single mobilization fee and greater economies of scale from a single larger project.

The proposed list is reflective of Public Works Staff's assessment of the relative condition of the roads within the City. Each street is ranked between #1 through #5 with the lower rank being of higher priority based upon cracks, potholes, and the thinness of the pavement. This ranking is subject to change over time, as roads receive different amounts of usage and wear that requires the list to be periodically updated. The priority list is used to establish the scope of work and bid proposal for the resurfacing project in the upcoming FY 18/19 budget.

The proposed list is being presented to the City Commission for consideration and approval as submitted or with any amendments that the Commission may desire.
